Bitin' Titan Titanium Spinner Baits will THUMP when others SLUMP...

Bitin' Titan Bladed Spinner Baits and Spoons are made from grade 1 titanium. Stronger than steel, yet lightweight, these titanium Spinner Bait blades and Spoons offers anglers more versatility, durability and strength than steel blades.

Bitin' Titan Titanium Spoons will FLUTTER when others FLOUNDER...

Our Patented Lightweight Titanium Blades and Spoons allow Spinner Baits and Spoons to keep working at slow speeds, while still transmitting vibration through the line for angler contact. Increasing the speed magnifies the thumping vibration for even better feel and contact.

*Titanium will not rust. The blades and spoons from "BITIN TITAN" Lures are **guaranteed** not to rust. **BITIN' TITANS ARE THE ONLY PATENTED TITANIUM BODIED BAITS ON THE MARKET!!***
