*"The Readi-Lure Tackle box is a pack rat fisherman's dream come true. Not quite big enough for the kitchen sink, but it will hold just about everything else and in handy, easy to access places." James Swan, Ph.D. columnist ESPNOutdoors.com*

Say goodbye to the days of fishing for tackle instead of fish! The innovative horizontally loading design of the Readi-Lure® fishing tackle box ensures fast and easy access to all of your bait and tackle.

With the unique twin 4-drawer storage system and multiple removable compartments, bait and lures of varying sizes and shapes are easily reached. The fishing tackle box is made of a durable, translucent polypropylene plastic that is both lightweight when empty and allows nighttime content visibility with the assistance of a flashlight.

The state-of-the-art octagonal design provides a variety of compartment sizes for storage of up to 200 fishing baits while keepi  
ized.

Professional touring bass angler and seminar speaker, G. Wayne Byrd, prefers the Readi-Lure® fishing tackle box for his bait and tackle storage needs. With the assortment of fishing tackle storage systems on the market, ranging from bags to boxes, the Readi-Lure® clearly stands apart as the one and o  
ent.
